

Dear FCC,
I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere, especially in Clear Channel Land known as San Diego, CA. I cannot go 5 minutes without having to hear 3 minutes of commercial.

So I switched and decided PAY RADIO is for me. I pay for this service. I expect the best value for this service.

So instead of being inundated with ads, I listen to music how I like, news I like, and comedy when I like.

Just like Cable TV, I want the best service and selection for my money. The Weather Channel offers in-depth weather coverage and I still watch my local newscasts.

It should not be up to the National Association of Broadcasters to dictate what you are permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Thanks!

Robert James
